Profile

Full Stack Developer (MERN Stack) with hands-on experience building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing responsive front-end interfaces, designing RESTful APIs, implementing authentication systems, and managing databases using Mongoose. Strong understanding of CRUD operations, MVC architecture, and deployment workflows. Passionate about writing clean, maintainable, and production-ready code.

Skills

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript (ES6+), React.js

Backend: Node.js, Express.js

Database: MongoDB, Mongoose, SQL, Prisma

Tools: Git, GitHub, Postman, VS Code

Concepts: RESTful APIs, MVC Architecture, Authentication & Authorization, CRUD Operations, Responsive Design

Experience

Full Stack Intern –Azzunique Software Pvt. Ltd., Jaipur

Feb 2026

Developed a responsive **Banking LOAN dashboard** using React.js. Implemented dynamic data visualization (charts, graphs, analytics panels). Designed reusable components and optimized performance. Integrated REST APIs for real-time financial data. Improved user experience with clean UI/UX and responsive design

Training

Learn and Build – Full Stack Web Development

July 2025 – August 2025

Completed an intensive full stack web development training program focused on modern frontend and backend technologies.

Built and tested **12+ full-stack projects**, writing and debugging JavaScript code in a collaborative team environment.

Followed industry-standard coding practices and received positive feedback from senior developers on code quality.

Projects

WanderLust – Airbnb-Style Property Rental Platform (MERN Stack)

 github.com/mdmaj/WonderLust

- Implemented secure user authentication and authorization.
- Built RESTful APIs for property creation, updating, deletion, and dynamic search functionality.
- Integrated image upload feature and responsive UI for better user experience.

Grocery App – MERN Based Shopping Application

 github.com/mdmaj/Grocery-App

- Built a grocery shopping web application with complete CRUD functionality.
- Implemented dynamic cart management system with quantity updates and item removal.
- Connected MongoDB database using schema-based modeling with Mongoose.
- Developed responsive frontend using React and Tailwind/Bootstrap.

Chat Application – Backend CRUD System

 github.com/mdmaj/Chat-app

- Developed backend chat management system using Node.js and Express.js.
- Designed REST APIs for creating, retrieving, updating, and deleting chat messages.
- Implemented MongoDB integration for persistent data storage.

Education

Jaipur Engineering College

Bachelor of Technology in Computer Science, RTU (8.9 CGPA)

Govt Sr Sec School Barhi, Hazaribagh

Class XII (Govt Sr Sec School Barhi, Hazaribagh), JAC (78.4%)

2023 – 2027

Jaipur, Rajasthan

May 2023

Hzb, Jharkhand
